

- \* Show in many TW schematics as a single 18k2 4W resistor, but usually implemented this way
- \*\* R30a and b can be replaced with a single 470k3W resistor
- \*\*\* C17a & b shown as a single 80 $\mu$ F cap in some schematics

# Trainwreck Liverpool

## Based on the designs of Ken Fischer

Based the M. Kröger schematic and Liverpool86 photo
